

bringing innate immunity to the **next level**

Complement and collectins

Hycult Biotech is a leading world-class manufacturer of research reagents in the field of innate immunity. We are a specialized partner in the development and manufacturing of assays, antibodies, proteins and peptides. With a focus on innate immunity, we pay special attention to products relating to antimicrobial peptides, complement, acute phase proteins, TLR, LPS and microbial toxins.

The complement system is not only central to innate immune responses but is also a dominant player in adaptive immunity. Damage-associated molecular patterns (DAMPs) are translated into cellular responses through interaction with specific receptors on distinct cells. Among these are pattern-recognition receptors (PRRs) which identify pathogen associated molecular patterns (PAMPs) and endogenous danger signals, e.g. apoptosis related membrane fragments. Complement components like C1q, C3 and the collectin mannose-binding lectin (MBL) are essential soluble danger sensing proteins that are activated by both endogenous and exogenous stimuli.

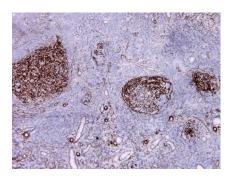

Validated ELISA kit sample types:

BF:	Bronchoalveolar fluid	CF:	Cerebrospinal fluid
CS:	Cell culture supernatant	JF:	Joint fluid
P:	Plasma	S:	Serum
SP:	Sputum	U:	Urine

ELISA kits for human		
Product name	Sample types	Cat. #

Can't find the sample type you want for an **ELISA kit?**

Ask the support team to assist you with your research needs on support@hycultbiotech.com!

C4d in human tonsil. Staining of frozen section with clone 12D11 (Cat. # HM2229)

How many tests would you like?

Almost all our ELISA kits are available in both a 1-plate and a 2-plate format!

ELISA kits for other species			
Product name	Sample types	Cat. #	
Mouse C1q	PS	HK211	
Mouse classical pathway	PS	HIT420	
Mouse lectin pathway	PS	HIT421	
Mouse MBL-A	CSPS	HK208	
Mouse MBL-C	CSPS	HK209	
Pig C5a	PS	HK701	
Pig classical pathway	PS	HIT430	
Pig lectin pathway	PS	HIT431	
Rat alternative pathway	PS	HIT412	
Rat classical pathway	PS	HIT410	
Rat lectin pathway	PS	HIT411	
Rat TCC	PS	HK106	

Looking for other products related to complement?

We have more than ten folders that highlight different segments of our portfolio, such as LPS, coagulation molecules and acute phase proteins!

Validated antibody applications:

F:	Frozen sections	FC:	Flow cytometry
FS:	Functional studies	IA:	Immunoassay
IF:	Immunofluorescence	IP:	Immunoprecipitation
P:	Paraffin sections	W:	Western blot

Want to try different antibodies?

Use the sampler pack (Cat. # HM8999) to find the best antibody for your specific setup!
